GROUP VISIT - RISK ASSESSMENT REQUEST

“Matilda the Musical”

Dear Customer,

The Cambridge Theatre, together with the Producers of Matilda – The Musical, have conducted a number of Risk Assessments as required under Health and Safety legislation. These Risk Assessments include a Fire Risk Assessment, Show Risk Assessment and Building Risk Assessment and are always available for inspection at the theatre as part of your process for developing your own Risk Assessment.

We do not, however, generate Risk Assessments which are specifically tailored to the needs of individual parties, indeed it is the responsibility of the party organiser to do this.

All our theatre employees are provided with relevant Risk Assessments and our Front-of-House Attendants are fully trained in evacuation procedures. A ‘Theatre Fire Officer’ is on duty for every performance and trained First Aiders are in place. All of our theatres have “Premises Licences” which are issued annually by the relevant London Borough Council; these Licences also require specific public safety requirements. We also have a comprehensive Health and Safety Policy.

If we can be of any further assistance, please do not hesitate to contact further.

We hope that you and your group enjoy the show,

Kind regards,

Adam Pepall
Theatre Manager
